Price of Farm Machines (subsidy purpose)

FY 2080/81

S.N	Machine	Specifications	Least Amount proposed (Price rate NRs.)	Subsidy Price rate Amount (50% of Least Amount Quoted (NRs.))
1	Mini Tiller (Gasoline)	Mini tiller of 5 - 7.5 hp capacity, 4 stoke petrol, air cooling, manually starting engine, gear system power transmission, 1,2,0,-1 numbers of gears, gross weight of 80-100 kg and fuel tank capacity having 2.5 - 4 lit., and having double clutch system for safety use. Tilling width should be 700-900 mm. A set of 24-36 tilling blades and tool box should be added as spare parts. Required amount of lubricating and fuel oil for testing purpose should include and must be minimum of 1 year's service warranty is required.	35,910.0	17,955.0
2	Mini Tiller (Gasoline)	Mini tiller of 8 - 9 hp capacity, 4 stoke petrol, air cooling, manually starting engine, gear system power transmission, 1,2,0,-1 numbers of gears, gross weight of 100-125 kg and fuel tank capacity having 4 - 6 lit., and having double clutch system for safety use. Tilling width should be 900-1100 mm. A set of 24-36 tilling blades and tool box should be added as spare parts. Required amount of lubricating and fuel oil for testing purpose should include and must be minimum of 1 year's service warranty is required.	53,115.0	26,557.5
3	Mini Tiller (Diesel)	Mini tiller of 5- 6 hp capacity, 4 stoke diesel, air cooling, manually starting engine, gear system power transmission, 1,2,0,-1 numbers of gears, gross weight of 90-100 kg and fuel tank capacity having 2 - 3.5 lit., and having double clutch system for safety use. Tilling width should be 700-900 mm. A set of 24-36 tilling blades and tool box should add as spare parts. Required amount of lubricating and fuel oil for testing purpose is included and must be minimum of 1 year's service warranty is required.	47,805.0	23,902.5
4	Mini Tiller (Diesel)	Mini tiller of 6.5-7 hp capacity, 4 stoke diesel, air cooling, manually starting engine, gear system power transmission, 1,2,0,-1 numbers of gears, gross weight of 110-125 kg and fuel tank capacity having 3-5 lit., and having double clutch system for safety use. Tilling width should be 900-1100 mm. A set of 24-36 tilling blades and tool box should be added as spare parts. Required amount of lubricating and fuel oil for testing purpose is included and must be minimum of 1 year's service warranty is required.	56,500.0	28,250.0
5	Power Tiller	Power tiller of 10-12 hp capacity suitable for multipurpose farm work, having 4 stoke diesel engine and water hopper cooling system. gear and chain system power transmission, 2- reverse, 6-forward (both high low) numbers of gears. minimum ground clearance 180 mm. A set of rotary cultivators attached having minimum of 18 blades and covering minimum of 500 -700 mm tilling width. Required amount of lubricating and fuel oil for testing purpose is included and must be minimum of 1 year's service warranty is required.	159,810.0	79,905.0
6	Flour Mill /Disc Mill	A complete grain flour milling plant for animal feed making purpose, having milling capacity of 150-200 kg/hr, gross weight should be 40-55 kg. Made of mild steel materials & working with 1.5-3 hp single phase electric motor with belt safety cover including Sieve.	23,945.0	11,972.5
7	Chaff Cutter (Electric)	Semi automatic chaff cutter suitable for both green and dry hard and soft grasses, working capacity minimum 400 kg/hrs (green grass base), operated by single phase at least 2 hp electric motor. no of cutting blades 2 or more and no of roller 3 gross weight should be 110-140 kgs.	30,500.0	15,250.0
8	Mini Corn Sheller (Single tube)	Single tube electric motor operated mini corm sheller made of stainless steel with high threshing ratio and low crushing ratio. Having capacity of at least 200 kg/hour, gross weight minimum 15 kg and single phase motor should be minimum rated 100 % copper wire not less than 0.5 hp. Clean seperation with non-slip base for safety.	10,000.0	5,000.0
9	Mini Corn Sheller (Multiple cob feeding)	Multiple cob feeding electric motor operated mini corm sheller made of stainless steel with high threshing ratio and low crushing ratio. having capacity of at least 400 kg/hour, gross weight minimum 20 kg and single phase motor should be minimum rated 100 % copper wire not less than 1 hp. Clean seperation with non-slip base for safety.	14,500.0	7,250.0
10	Multifunctional Tiller	Tiller of 5-7.5 hp petrol engine, gear and chain system power transmission. tilling width minimum 700-800 mm. Gross weight must be 100-130 kgs and having fuel tank capacity of 3-5 lit. 5 pics of ditching blades, a set of 3*3 rotatory blades, a set of iron and rubber wheel and tool box should be added as spare parts. Required amount of lubricating and fuel oil for testing purpose is included and must be minimum of 1 year's service warranty is required.	82,500.0	41,250.0
